

A LUXURIOUS SENSORY EXPERIENCE

FOAMATION[®] natural foaming agent

Natural extracts for rich and **luxurious foaming**

Ingredion's powerful FOAMATION[®] PC natural foaming agents provide a luxurious sensory experience by creating a rich and stable foam for your skin and hair cleansing products. As natural ingredients which improve foam structure and stability, they can enhance sensory properties in a variety of cosmetic applications.

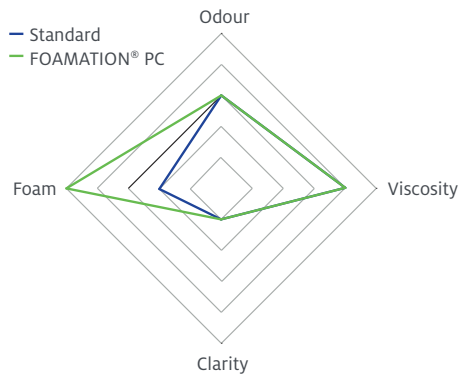

Ingredion[™]

A luxury sensory experience with versatility and a **simple label**

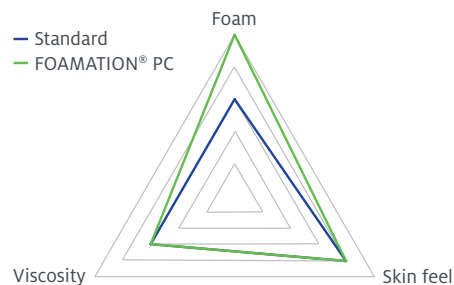

FOAMATION® PC foaming agent creates a dense, consistent foam structure to help cleansing products feel rich and luxurious against the skin. Through fast foam formation, these powerful foaming agents can reduce water usage, while ensuring that consumers enjoy a satisfying sensory experience. They are natural and can be used to replace synthetic ingredients.

FOAMATION® PC IN BODY WASH

FOAMATION® PC natural foaming agent creates a rich, luxurious and stable foam in body wash. The ingredient has no effect on clarity, viscosity or fragrance.

FOAMATION® PC IN FACE CLEANSER

FOAMATION® PC natural foaming agent creates an even richer foam in face cleanser with no effect on viscosity or soft skin feel.
